nineteen hundred sixty six

cape cod community college

hyannis, mass.

The building which now houses Cape Cod Community College has had a long history as an educational center.

It was originally built in 1877 as State Normal School. Following this, the building housed the Hyannis State Teachers' College until 1942, when it became the Massachusetts Maritime Academy.

In October, 1960, a new adventure in education began for the halls already rich in educational tradition. Cape Cod Community College, a brand new idea in higher learning, once again opened the ancient doors to eager students.

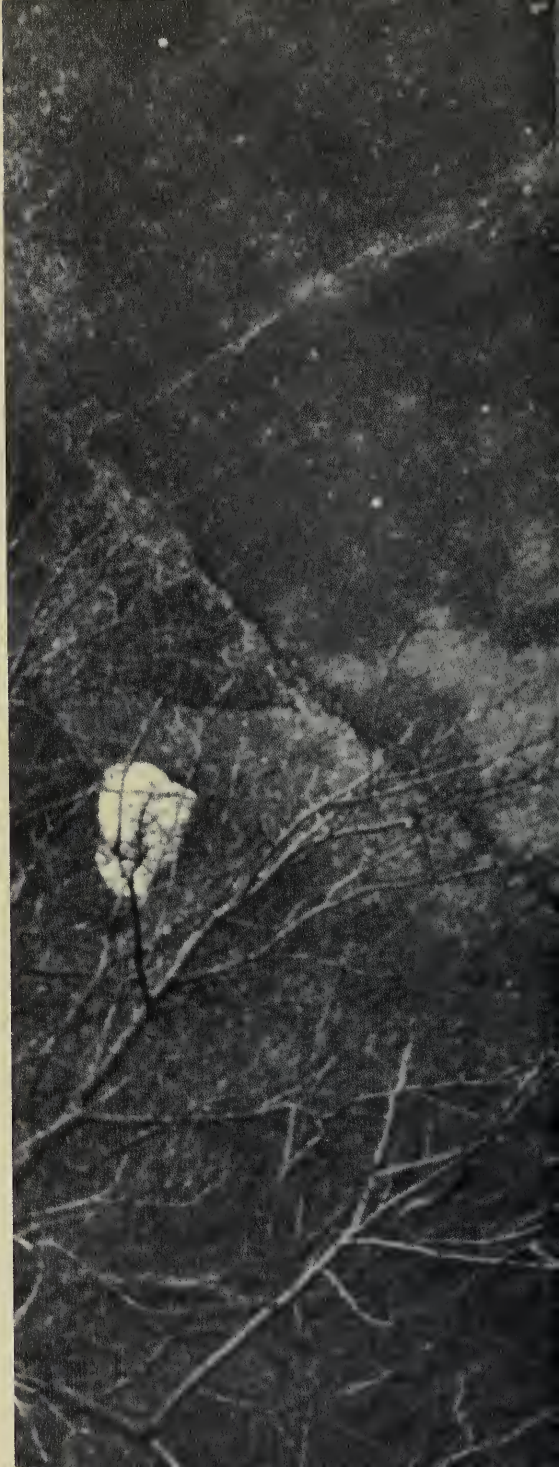

With great admiration and deep sincerity, we, the class of 1966, dedicate our Foreseer to the man without whom the yearbook could not be possible.

We sincerely appreciate his encouragement, his guidance, and his quiet willingness to help the students in any way he possibly can.

In grateful recognition of his untiring zeal in behalf of the students of Cape Cod Community College, we dedicate the Foreseer to Mr. Deane M. Warner.

Student Life

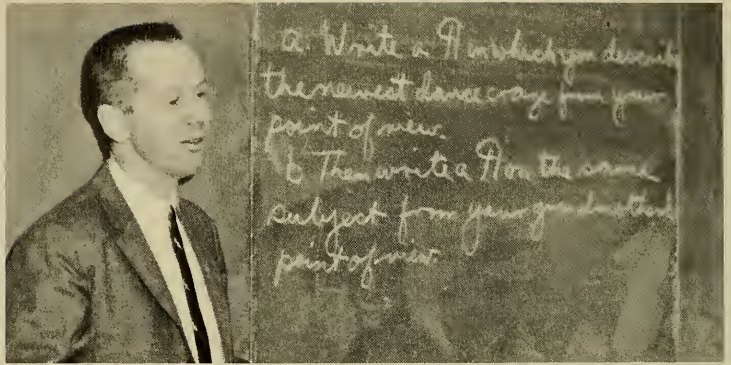

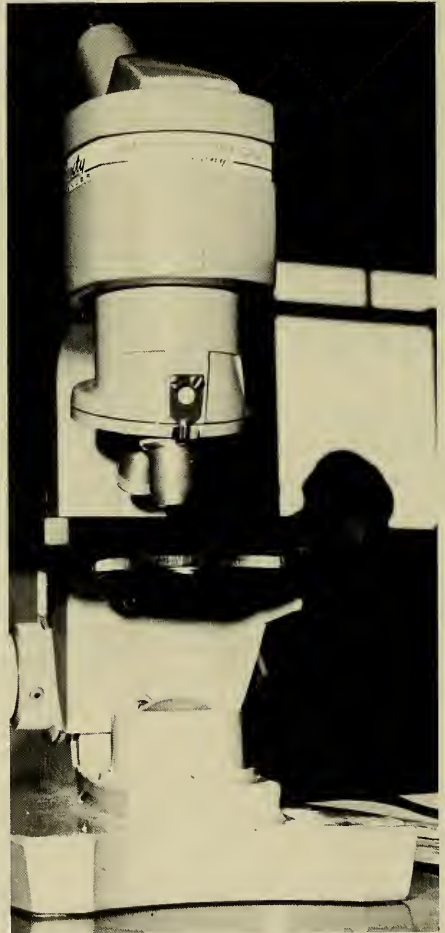

*As life runs on, the road grows strange
With faces new . . .*

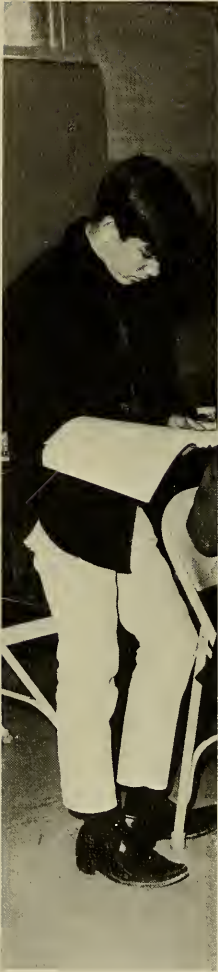

*Study is like the heaven's glorious sun,
That will not be deep-searched with saucy
looks.
Small have continual plodders ever won,
Save base authority from others' books.*

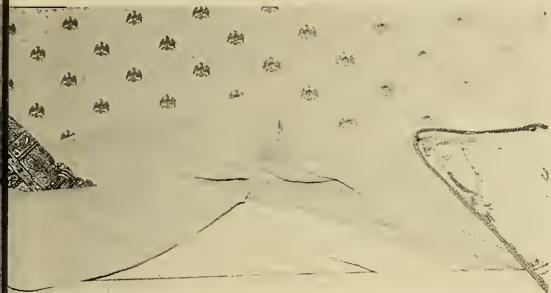

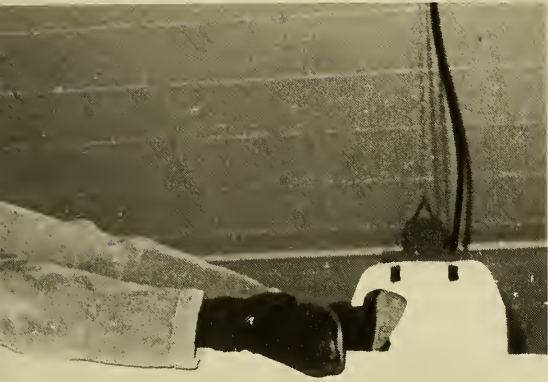

Some are bewildered in the maze of schools.

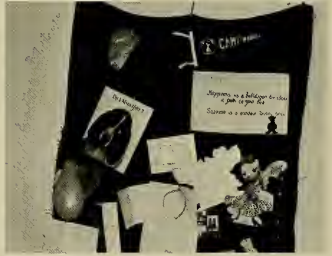

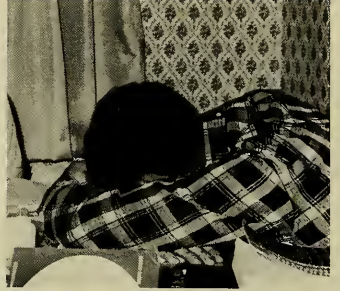

*Why should our thoughts to distant coun-
tries roam
When each refinement may be found at
home?*

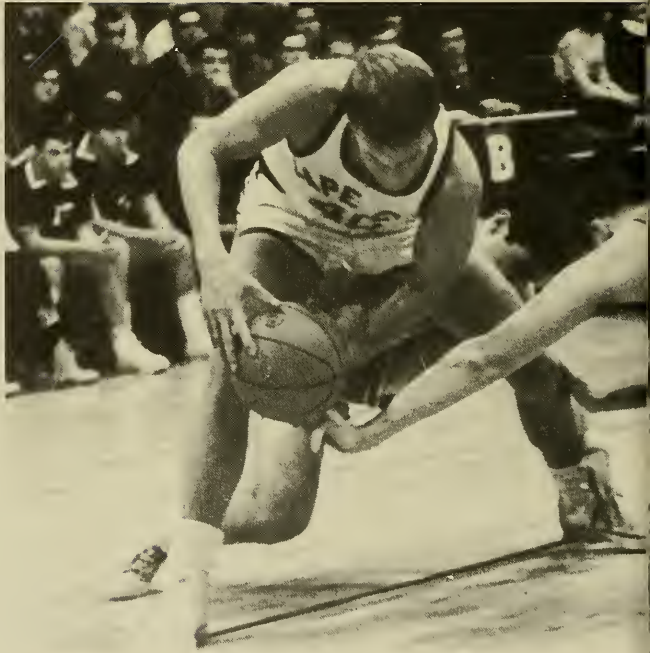

The truth is, I do indulge myself a little the more in pleasure, knowing that this is the age of my life to do it.
